📓 EXP-01

🎯 AIM:

To create a Travel Planning Web Page that embeds a map with hotspots, frames, and links. The web page is designed using HTML, incorporating embedded, external, and inline CSS for styling. This experiment helps in understanding how to integrate multimedia elements like maps, create interactive hotspots, and organize content using frames.

▯ ALGORITHM:

Step 1: Create HTML Structure

- **Create basic structure using <!DOCTYPE html>, <html>, <head>, and <body>**
- **Add title and link external CSS using <link> tag**

Step 2: Add Page Sections

- **Header → Display college name and project title**
- **Navigation bar → Add links like Home, Destinations, Packages, Contact**
- **Divide page into two sections (left and right)**

Step 3: Add Features

- **Links: Use <a> tag for navigation**
- **Image Map (Hotspot):**
  - **Use <img> with usemap**
  - **Define clickable region using <map> and <area>**
- **Google Map:**
  - **Use <iframe> to embed location**
- **Frame Content:**
  - **Use <iframe> with srcdoc to show travel updates**

Step 4: Apply CSS

- **External CSS → styling for layout and colors**
- **Embedded CSS → section styling**
- **Inline CSS → highlight important text**

Step 5: Test the Webpage

- **Check hotspot clicking**
- **Verify map display**
- **Ensure links and frames work correctly**

💻 PROGRAM

📄 Index.html

```
<!DOCTYPE html>
<html lang="en">
<head>
   <title>Travel Planning Website</title>

   <!-- External CSS -->
   <link rel="stylesheet" href="style.css">

   <!-- Embedded CSS -->
   <style>
      .main {
         display: flex;
         padding: 20px;
      }

      .left {
         width: 30%;
         background: #ffffff;
         padding: 15px;
      }

      .right {
         width: 70%;
         background: #f9f9f9;
         padding: 15px;
      }

      h2 {
         color: #003366;
      }
   </style>
</head>
```

```
<body>

<header>
   <h1>Rajalakshmi Engineering College</h1>
   <p>Travel Planning Project</p>
</header>

<nav>
   <a href="#">Home</a>
   <a href="#">Destinations</a>
   <a href="#">Packages</a>
   <a href="#">Contact</a>
</nav>

<div class="main">

   <!-- Left Section -->
   <div class="left">
      <h2>Important Links</h2>
      <ul>
         <li><a href="https://www.rajalakshmi.org" target="_blank">College
Website</a></li>
         <li><a href="#">Travel Guides</a></li>
         <li><a href="#">Booking Info</a></li>
      </ul>

      <h2>College Image (Hotspot)</h2>

      <!-- Image Map -->
      <img src="rec.jpg" width="250" usemap="#recmap" alt="REC">

      <map name="recmap">
         <area shape="rect" coords="0,0,250,250"
            href="http://www.rajalakshmi.edu.in/studentlife-technical-society-
activities.php"
            target="_blank">
      </map>

      <h2>Location</h2>

      <!-- Google Map -->
      <iframe
```

```
src="https://www.google.com/maps?q=Rajalakshmi+Engineering+College+Chennai&output=embed"
          width="100%"
          height="200"
          style="border:1px solid #003366;">
       </iframe>
    </div>

    <!-- Right Section -->
    <div class="right">
       <h2>Latest Updates</h2>

       <p style="color:red; font-weight:bold;">
          New Travel Packages Available!
       </p>

       <p>Plan your trips easily using our website.</p>

       <h2>Travel Notice Board</h2>

       <iframe width="100%" height="180" style="border:1px solid #003366;"
          srcdoc="
          <h3>Upcoming Trips</h3>
          <ul>
             <li>Ooty Trip: 22nd March</li>
             <li>Kodaikanal: 28th March</li>
             <li>Goa Tour: 1st April</li>
          </ul>
          ">
       </iframe>
    </div>

</div>

<footer>
    © 2026 Travel Planning Project | Rajalakshmi Engineering College
</footer>

</body>
</html>
```

🎨 **Style.css**

```
body {
   font-family: Arial;
   margin: 0;
   background-color: #eef2f5;
}

header {
   background-color: #003366;
   color: white;
   padding: 15px;
   text-align: center;
}

nav {
   background-color: #d9d9d9;
   padding: 10px;
}

nav a {
   margin-right: 15px;
   text-decoration: none;
   color: #003366;
   font-weight: bold;
}

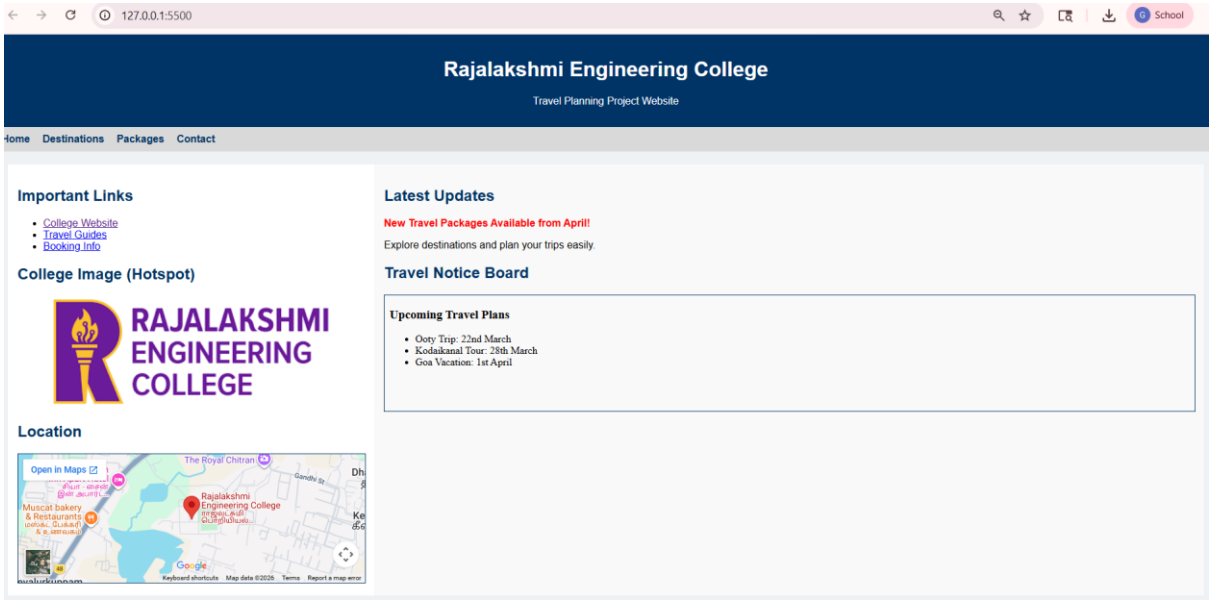
footer {
   background-color: #003366;
   color: white;
   text-align: center;
   padding: 10px;
}
```

🖼️ **OUTPUT:**

The web page displays:

- **Travel planning interface**
- **College image with clickable hotspot**
- **Embedded Google Map**
- **Travel updates using frame**

- **Navigation links**



✅ RESULT:

Thus, a Travel Planning Web Page is successfully created with hotspots, frames, links, and embedded map using HTML and CSS.
